Air mandrels

Our company offers a wide range of air mandrels, both parallel and conical, for the fitting of anilox or cliché sleeves.

They can be made in aluminium, with anodisation, chrome plating or plasma coating, in steel with chrome plating or plasma coating, and finally in carbon fiber with anti-wear surface treatment. Feasible diameters range from 47.862mm (170 development) to 1800mm (3200 development) with a maximum available length of 12000mm.

APPLICATIONS

- Flexographics
- Rotogravure

DIMENSIONS

- Diameters from 47.862 mm (development 170)
- Diameters from 1800 mm (development 3200)
- Length 12000 mm

TYPE

- Parallel
- Conical
